# KAFW PALLET

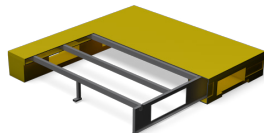

The Kiel Materials Handling range is a durable and strong option for your storage needs.

Model	KAFW 1160 Pallet
Size	1160mm x 1160mm x 170mm high
Weight	32 kg with steel reinforcement
Load	6 tonne static load 1.5 tonne drive in racking load

The KAFW pallet family comes in three variations. All three are designed to suit drive in racking and include 4-way forklift entry. One version has a flat smooth top for ease of transfer with goods, a second version has lips around the edges to prevent goods from slipping off the pallet, whilst the third is specifically designed for Blast Freezers incorporating four large vent holes in the top.

Fully encased metal mebrane provides support across both the width and lengths as well as enhancing the life of the pallet.

Proudly manufactured in Australia under ISO 9001-2015

### Simple

Smooth exterior skin easy to clean with no "nooks or crannies". 4 way forklift entry with easy pallet truck access.

### Durable

Rotationally Moulded LDPE construction to withstand the harshest of environments. Complies with Australian Food Grade Standard 2070 and can be fully recycled.

### Strength

The LDPE contains a fully formulated UV stabilisation package to UV20.

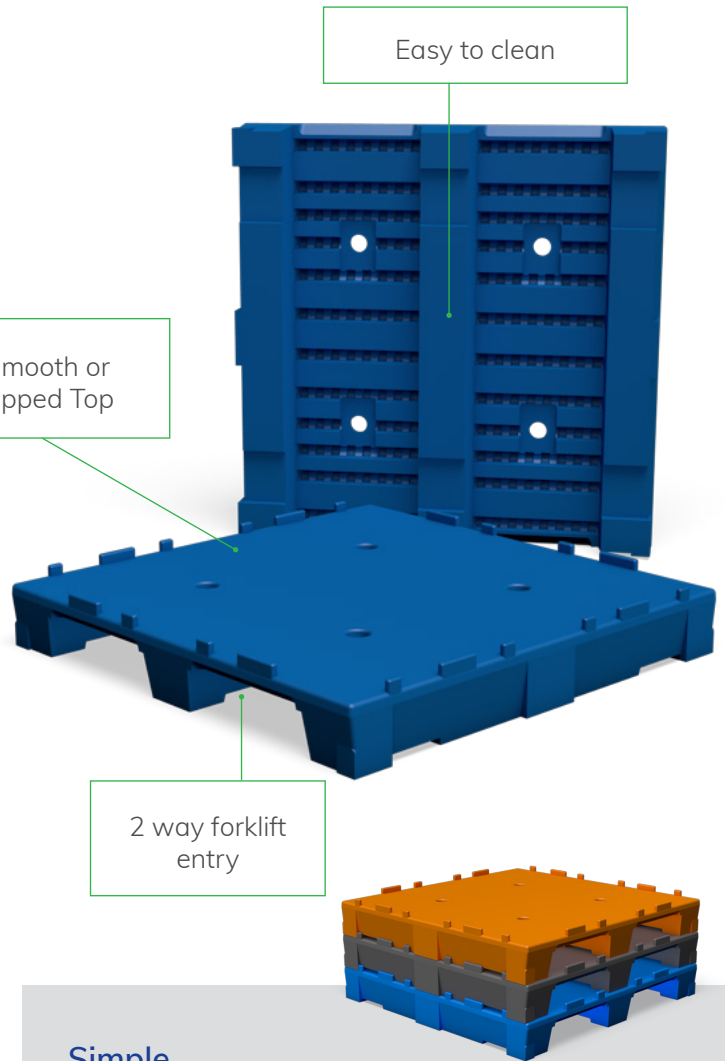

### Optional

Available in a range of colours. Option to have your company logo or asset ID number moulded into the bin and lid. Ask for our manufacturing colour chart for all available colours.

# KTA PALLET

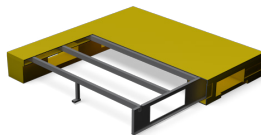

The Kiel Materials Handling range is a durable and strong option for your storage needs.

Model	KTA 1160 Pallet
Size	1160mm x 1160mm x 150mm high
Weight	32 kg with steel reinforcement
Load	6 tonne static load 1.5 tonne beam racking load

The KTA pallet family comes in two variations. Both are designed to suit beam racking and include rack locks in their design. The KTA family has 2-way forklift entry. One version has a flat smooth top for ease of transfer with goods, whilst the second has a lipped edge to ensure goods do not slip off the pallet.

Fully encased metal mebrane provides support across both the width and lengths as well as enhancing the life of the pallet.

Proudly manufactured in Australia under ISO 9001-2015

### Simple

Smooth exterior skin easy to clean with no "nooks or crannies". 2 way forklift entry allows easy pallet truck access.

### Durable

Rotationally Moulded LDPE construction to withstand the harshest of environments. Complies with Australian Food Grade Standard 2070 and can be fully recycled.

### Strength

The LDPE contains a fully formulated UV stabilisation package to UV20.

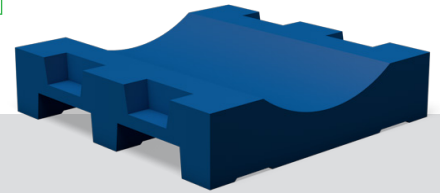

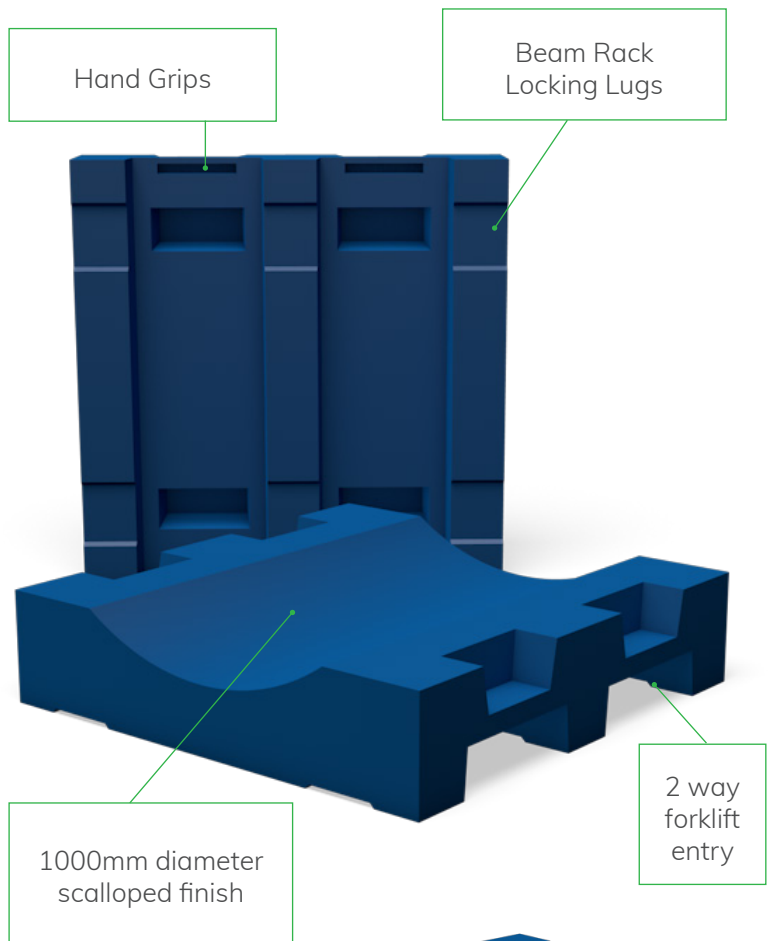

### Optional

Available in a range of colours. Option to have your company logo or asset ID number moulded into the bin and lid. Ask for our manufacturing colour chart for all available colours.

# KRP PALLET

The Kiel Materials Handling range is a durable and strong option for your storage needs.

Model	KRP1100 Pallet
Size	1090mm x 1090mm x 250mm high
Weight	31 kg with steel reinforcement
Suits	1000mm diameter reels

The KRP1100 is the largest of our scalloped reel pallet range able to accept a 1000mm diameter reel. It includes a steel reinforced internal skeleton with a 6mm external plastic skin made from Food Grade polyethylene. Includes stacking lugs for safe movement and handling, internal hand grips and racking beam locking lugs.

The clean design means that the pallet has no extra nooks and crannies to collect waste and can easily be handled and cleaned.

Proudly manufactured in Australia under ISO 9001-2015

### Simple

2 way entry with smooth scalloped finish guaranteeing protection of your goods during transport and storage.

### Durable

Rotationally Moulded LDPE construction to withstand the harshest of environments. Complies with Australian Food Grade Standard 2070 and can be fully recycled.

### Strength

The LDPE contains a fully formulated UV stabilisation package to UV20.

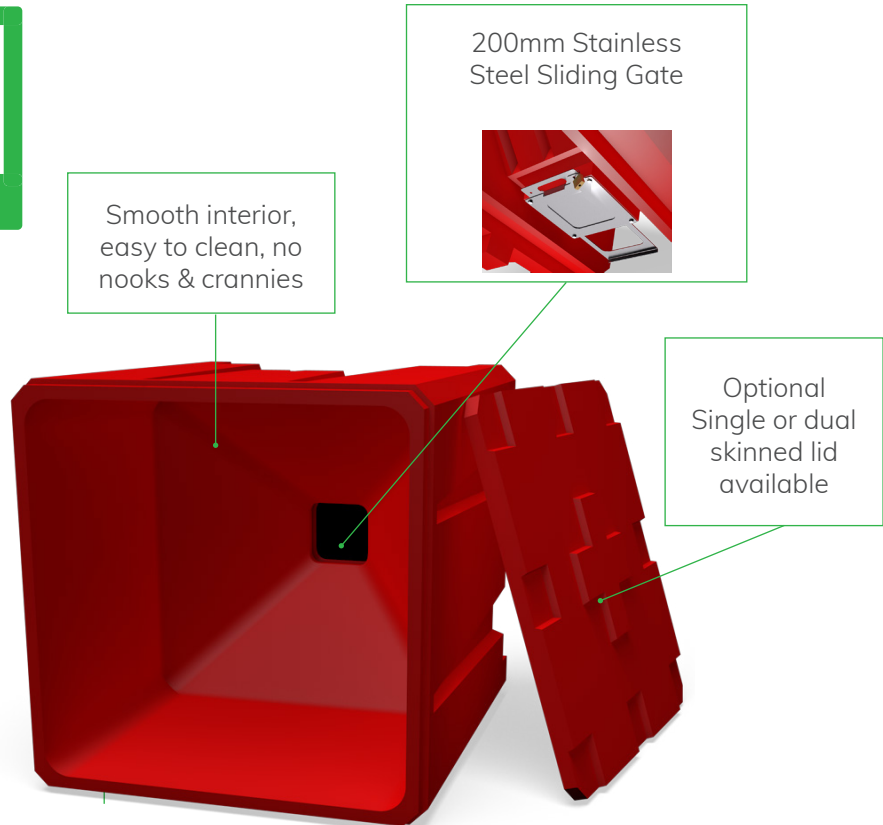

### Optional
